

NINETEENTH YEAR, No. 16

GLEICHEN, ALBERTA, JULY 8, 1925

SUBSCRIPTION \$2.00 A YEAR

IMPRESSIONS OF THE GLEICHEN STAMPEDE

That the romance of cowboy days is not all confined to books dealing with the past or magazine stories of bygone days is brought forcibly to mind each year, for those who dwell in the city and are wont to forget that the great open range still stretches far out in cattle-dotted reaches, by the annual stampedes held at different points throughout the country. The stampede last week at Gleichen was another reminder that the days of wild-horses and daring riders, or range steers and clever rope men are not yet over in Alberta.

Not only did the actual events of the stampede bring to mind the fact that still there are cowboys still as debonair, as daring and as capable as those who graced the pages of "The Virginian," but the atmosphere which these riders brought into the town from four points of the compass was one charged with the strength and virility of the plains. The boys who rode had not acquired their ability to bestride a volcanic cayuse in a day, nor was their skill perfected for the sole purpose of providing an arena display for excitement-loving crowds. Their knowledge of horsemanship was obtained in the hard school of necessity—in breaking to usefulness countless horses taken from Alberta's plains and tamed into burden-bearing animals fit to do service in developing the province in which they grew, or outside its borders.

The stampede was not only an exhibition of horsemanship and roping skill, but an actual demonstration of what is being done every day on the plains of the province.

Added to the picturesque aggregation of gay-shirted riders who represented hundreds of similarly skilled comrades in the province, there were present gorgeously clad and soft moccasined people's as relics from the old wild days when the red man held sway. With their brilliantly marked blankets, long, oily braids of black hair, and bronzed skins, they provided a fitting background for the wild west display going on within the ring.

TUESDAY, JUNE 30th.

Bucking Horse Riding—1st H. Walsh, of Crossfield; 2nd Pete Knight and Pete Le Grandier of Hussar.

Bareback Riding—1st J. B. Mooney of Shepard; 2nd Eddie Watrin of High River.

Wild Horse Race—Richard Brass of Gleichen; 2nd Slim Watrin of High River.

Steer Riding—1st Eddie Watrin of High River; 2nd John Grant of Gleichen.

Calf Roping—1st Frank Heslip of Willow Creek; 2nd Harold Walsh of Crossfield.

Cow Milking—1st Jack Kipp; 2nd Donald McMaster of Gleichen.

Half-Mile Indian Race—1st Mark Cutter; 2nd Donald McMaster.

Half-Mile Open—1st A. C. Redfern; 2nd Miss Davis.

One-Mile Indian—1st Three Sons; 2nd Edward Axe.

Relay—1st Mark Spring Chief; 2nd Emory LaGrande.

Five-Eighth-Mile—1st Miss Davis; 2nd Mark Cutter.

Half-Mile Indian—1st Mark Cutter; 2nd Ed. Many Bears.

Cowboy Turning—1st A Pretty Young Man; 2nd Donald McMaster; W. H. James, Finals—1st Donald McMaster, and 2nd A Pretty Young Man.

Cowboy Race—Bear Robe, 2nd Emory LaGrande, 3rd Running Wolf.

WEDNESDAY, JULY 1st

Bucking Horse Riding—1st Slim Watrin of High River; 2nd Dick Cosgrove of Cheadle.

Riding Bareback—1st Eddie Watrin of High River; 2nd J. B. Mooney of Shepard.

Wild Horse Race—1st Eddie Watrin of High River; 2nd Chuck Payne of Cheadle.

Steer Riding—1st Eddie Watrin of High River; 2nd Neil McMillan of Gleichen.

Calf Roping—Simon Big Snake of Gleichen.

Cow Milking—1st Jack Kipp of Gleichen; 2nd Frank Shield of Gleichen.

FINALS

Riding Bucking Horse—1st Pete Knight of Crossfield; 2nd Dick Cosgrove of Cheadle.

Calf Roping—1st Frank Heslip of Willow Creek; 2nd Simon Big Snake of Gleichen.

Best Bucking Horse—Pete Le Grandier of Hussar. Horse named "Mule Head."

Half-Mile Indian—Donald McMaster; 2nd Ed. Many Bears.

Half-Mile Open—Miss T. Davis; 2nd A. C. Redfern.

One-Mile Indian—Three Sons; 2nd H. Eagle Ribs.

Relay—M. Spring Chief; 2nd E. LaGrande.

Five-Eighth-Mile—A. C. Redford; 2nd Toots Davis.

Half-Mile Indian—Donald McMaster; 2nd Mark Cutter.

One-Mile Open—A. C. Redfern; 2nd A. C. Redfern.

Cowboy Turning—M. Spring Chief; D. McMaster.

Finals—M. Spring Chief, 2nd D. McMaster.

Early Tuesday morning Gleichenites awakened to find the cowboys were up long before the townspeople. At five that morning there was life stirring in fine shape and between the stampede grounds and the town horses were prancing and autos racing in every direction.

Thus it continued with ever increasing crowds arriving until sharp at 11 o'clock the Gleichen band struck up and Stampede Manager Chris. Bantach on a prancing steed headed down Fourth Avenue, while a moment later "Slim" Moorehouse gave forth his peculiar whistle, and the big procession was underway. It was fine to see at the sound of "Slim's" whistle how everyone of 36 "All Blacks" threw its weight into the collars and the long string of new grain tanks—filled with Gleichen's golden grain—move down the avenue. The first turn was at Crowfoot street and the thousands of people lining the streets wanted to see this sharp curve made. The fine trained leaders not only crossed the street but went a little beyond before they turned and then pranced back and crowded right up to the sidewalk. The test came however, when the three "wheel" teams at a word from "Slim" jumped the wire cable and began to pull directly away from the wagons. Of course, the uninitiated thought this a real "mix-up," but when they saw how neatly the long string of wagons turned they knew there was real art in training these animals.

Here be it known that all of these animals have been trained this year from all over the district and generally on light jobs. They were unusually loomed by the farmers of this community.

Among other attractions in the big parade was Mayor L. Michael's rainbow colored windmill, W. W. Brown's old-time gig, several boys in a toy wagon pulled by a little pony, and cowboys and cowgirls galore in their bright picturesque costumes on spirited steeds.

Altogether the parade was a grand success.

The stampede grounds presented a grand sight that afternoon, the track being surrounded by autos and the Gleichen band aided materially in the many numbers they played.

There was no lack of bucking horses and steers, nor riders, and there was something "doing" all the time. The track events were arranged to fit nicely in during the waits between the field sights, and many nice compliments have been given to the management of the stampede all through the two days.

The attendance was good, the second day, being Dominion Day, the crowd was more than doubled.

The Potlatch—well, now—it beggars description, and, perchance, it should not be attempted. However, it was a roaring success from start to finish and it was a mighty poor sport who did not enjoy at least some of the fun each night. Most everyone won prizes of some kind. But Geo. H. Goodenham won the best of all—the Chesterfield set. Wm. Jones was the next lucky man, carrying off the set of silverware.

No, we are not going to attempt to describe a Potlatch. It would not be fair to our red brothers. But we certainly hope our delinquent subscribers may soon have a very acute attack of this fever—its effects are so soothing.

Financially the undertaking was a success, but as the committee has not yet met to complete the business the exact amount is still to be announced.

Friday Harry Allen and Pete Le Grandier with a number of cowboys left with thirty bucking and wild horses for the Calgary stampede. They are all bad actors—we mean the horses; the cowboys are all broke gentle and will sure bring home some prizes.

Cowboy Race—E. LaGrande; 2nd M. Running Wolf.

3rd A Pretty Young Man.

Democrat Race—Joe Crowfoot; 2nd Weak Head.

GLEICHEN PUBLIC SCHOOL PROMOTIONS

GRADE VII

Phyllis Birdson 76.5 per cent—Pass.

Hugh Hainar 76.37 per cent—Pass.

Gerald Yates 68.37 per cent Cond.

Glen Hyndman 66.17 per cent condition in accuracy.

Edith Hutchison 64.157 per cent—Pass.

Florence Moe 58.45 per cent condition.

Stella Rishang 55.77 per cent conditions history, geography, arithmetic.

Elmer Saunders 55.25 per cent condition in arithmetic.

Leo Woods 54.67 per cent. Condition in arithmetic and accuracy.

Clarence Woods 51.87 per cent conditions in grammar and arithmetic.

Edna Wood 48.5 per cent.

Laurier Brown 35.47.

MRS. C. STEWART, Teacher.

STRATHMORE STAMPEDE WEDNESDAY, JULY 15

Strathmore is putting on its third Stampede on the afternoon of July 15th, for the benefit of the Great War Memorial Hall. Dick Cosgrave, the manager, one of the best cowpunchers in the West and who won second in the bucking at Gleichen last week, has assembled a bunch of the wild-outlaws in the country. The bucking will be high, 100, 200 and 325, and are attracting the real talent and there is also a good program.

Strathmore Stampede has always had a good reputation for giving sightseers their money's worth, and this year it will be bigger and brighter than ever.

A big dance is being held in the evening in the Memorial Hall.

Monday afternoon the most severe rain storm known struck Gleichen at about 5 o'clock and continued about an hour. If it was not a cloud burst many are asking could it have been worse. There was some hail but the wind did more damage. Some field crops east are reported completely destroyed, but this was only in certain sections. In town gardens were badly damaged, chickens killed and many of the roofs leaked badly. The little creek in the centre of the town became a torrent and an ice house was moved some distance and left stranded where the sidewalk had been the sidewalks were carried down stream and others badly torn and left in all shapes. Cellars were flooded and two feet of water was on the floor of the telephone exchange. A number of telephone poles were blown down and the service generally disarranged. The weather is ideal again and the rain has accomplished a great amount of good.

Kathleen Beach, a pupil of Miss Margaret Gordon of Calgary, has passed, with honors, the Introductory Piano Examination of the Toronto Conservatory of Music, held at Calgary in June.

Mr. and Mrs. Rennie and daughter arrived Tuesday from Chinook for the stampede and to visit Mrs. Rennie's sister, Mrs. Elmo Jones. They continued on to Calgary Friday.

The Chataqua tickets are now ready for sale to the guarantors only at Staback & Brown's store; who are requested to take up their tickets as early as possible.

Gleichen was at least represented in the big Calgary Stampede parade on Monday—Mr. Emil Griesbach was in full view in a Red River cart.

ST. ANDREW'S CHURCH SERVICES

Holy Communion 9 a. m.

Sunday School 10:15

Evening 7:30 p. m.

Please note—There will be no morning service as our incumbent will be absent for two Sundays to fulfil previous engagements elsewhere made prior to his incumbency of St. Andrew's Church. The Venerable Archdeacon Hayes, D.D. will conduct the service next Sunday evening.

The Rev. Mr. Blunt occupied the pulpit of St. Andrew's Church last Sunday evening, taking as his subject the right conception of God, which was expounded in a very able manner and much enjoyed by the congregation.

Mr. Blunt will be back with us at the end of July, when he will take full charge of St. Andrew's Church. The Sunday School will be held each Sunday as usual at 10:15 a.m.

Mr. M. W. MacDonald LL.B., barrister, announces that he has taken over the new law offices built by B. S. Corey at Arrowood, and is now carrying on a general law practise at that point. Mr. MacDonald has had over twelve years experience before the bar in this province and recently sold out his practise at Innisfail.

Mr. and Mrs. Bradford Tisdale of Toronto arrived for the Stampede and are still visiting Mrs. Tisdale's cousins Maed mes Pinder, Ostrander, McPhee and Koebel.

Wonder if there were any people left in Standaud during our stampede days? They all seemed to be in Gleichen.

"Shorty" Jenz, manager of the Hussar stampede, brought nearly all his friends to the Gleichen doing last week.

THE SPIRIT OF THE POTLATCH

Every community should have a large auditorium or meeting place where the mass participation of community interests could be carried out in true spirit of democracy. Ever since the days of ancient Greece and Rome, and before, people have sought to gather in mammoth array for the expression of the communal voice and ideals. The amphi-theatre, the Roman circus and Colosseum, have their counterparts in our stadiums, athletic fields, auditoriums and fairs.

Movements in recent years have brought great impetus to the development of less pretentious, through more useful, structures, in the way of community houses and memorial buildings. One fine thing about the community house or auditorium idea is that there is no well defined scale on which these structures can be built. A small community can have a small community house or auditorium that will serve the same purposes as the large building for the great city. It is in the utility rather than the size that the desired results are obtained.

Many cities and towns have reconstructed old landmarks and made them into beautiful club houses and community centers. A striking example of what can be done is in a small city of the east. An old mill was remodeled, and the mill-yard beautifully landscaped. Shrubbery, trees and lawns were adapted to the general scheme. The result of this community effort became known across the continent.

Possibilities of realizing the dream for community centers are all around you. You have but to look about you for the opportunities to acquire them. Once the movement is started you will find wealthy and civic-minded citizens anxious to donate lands and materials. Within the human breast is a desire to leave a monument—to bestow something permanent upon the community. The poor can contribute their mite, the rich their mighty. Let these things come from the hearts of the people and they will be permanent: What finer monument could one leave then to have contributed even in a small way toward making the lives of his fellow-citizens happier by having had a part in the acquisition and development of a great center of community interest.

Gleichen surely made a good start in that direction last week with our potlatch.

AGENTS FOR—
Butterick Patterns
Empire Cleaning
A. M. Terrill Florist

Geo. Matthews, Ltd.

DELIVERIES—
10 and 11 A. M.
3 and 5 P. M.

VALUE WITH SERVICE

AGENT FOR—FLIESHMANN YEAST, BUTTERICK, PATTERNS, EGG and POULTRY SERVICE

GINGHAMS—Genuine English Cloths, 32-36 in. wide 35c. and 45c. Yd

CREPES—Pretty Floral Patterns and also Plain Colors 35c. and 45c. Yd.

Hard Water Soap, 13 Cakes for 50c

Spring Cloth Pins, 4 Dozen for 25c

FRESH FRUIT FOR SATURDAY

WORLD HAPPENINGS
BRIEFLY TOLD

The Earl of Clarendon has been appointed chairman of the Overseas Settlement committee.

The annuity of \$7,500, guaranteed by the Federal Government to Dr. F. G. Banting, of Toronto, passed the House of Commons.

The Daily Chronicle and Weekly Gazette, the oldest newspaper in Canada, formed in 1764, has ceased publication.

Twenty-eight persons were killed and 130 houses destroyed by a hurricane which swept over the province of Altai, Russia.

Major A. R. Thompson, son of Col. Andrew Thompson, Ottawa, has been appointed Gentleman Usher of the Black Rod, in succession to the late Col. E. J. Chambers.

The cost of constructing Tokyo's new subway system will be somewhere in the neighborhood of 187,000,000 yen, according to the plans drawn up by the municipal authorities. There will be about 49 miles of the subway.

The Daily Express, London, suggests the name of Cockspur Street be changed to Canada Street in view of the opening of the new Canadian Building and also of a number of other Canadian offices.

The tomb of Virgil, at Naples, has been purchased by the Italian Government, and a large sum will be expended in restoring the ancient Latin poet's resting place as part of this year's celebration in his honor.

The preventive vaccine against tuberculosis, known as "B.C.G.," is producing most effective results, according to a report read before the Academy of Medicine, Paris, France, by Prof. Calmette, assistant director of the Pasteur Institute.

A mysterious epidemic has stricken the fish in Lake Geneva, which is causing them to die in such numbers that employees of the hydro-electric plants at Geneva, Switzerland, are obliged to work double shifts in order to shovel them out of the spillways.

French Deputy Drives Taxi

Works At Trade When Not Busy In Sessions

M. Adam, representing the Seine Communists in the French Chamber of Deputies, has the unique distinction of being the only taxi driver among the legislators of the country. He piles his trade whenever he can be spared from the chamber's sessions, and has the custom of leaving his taxi, which he owns himself, at the curb with a black flag over the meter—the chauffeur's method of indicating that he is not seeking fares. When the session is over the taxi driver deputy goes back to work, and it is often that he has as his first passenger some fellow deputy with whom a few minutes before he had been legislating for the country.

Investing Money In Palestine

Jews Spending Millions In Purchasing and Improving Land

The Jewish national fund has invested almost \$6,000,000 in the purchase and improvement of land in Palestine from October, 1920, to April, 1925, approximately the period of Sir Herbert Samuel's administration as high commissioner, according to a report issued by the world headquarters of the fund in Jerusalem.

Of this money \$5,191,440 was spent in the purchase of agricultural and urban land and \$774,150 in land improvements, including the drying up of swamps, road building, water supply installation and building loans to new settlers.

Find Great Bishop's Burial Place

The burial place of Bishop Peter Agabian, Bishop of Heford from 1240 to 1269, a mystery which has puzzled historians for centuries, has been solved.

It was generally believed that he was buried in Savoy, the place of his birth, 650 years ago, but Canon A. T. Bannister, of Heford, had the tomb in Heford Cathedral opened and the remains were revealed.

The stone coffin had been filled in with mortar in which there is a hollow, the shape of the body. In this cavity are the decayed remains of the bishop's full canonicals.

Dr. Shearer's Estate

According to the will of the late Dr. John G. Shearer, formerly secretary of the Social Service Council of Canada, his entire estate, valued at \$14,111.36, passes to his widow, Elizabeth A. Shearer. Upon the occasion of her death all the residue is to go to the Social Service of Canada to be used as they may decide. The bulk of the estate, amounting to \$44,000, is in real estate in the city of Toronto.

W. N. U. 1584

A New British Colony

Island of Cypress is Now Part of Empire

A new milestone in Mediterranean history was set up on May 1st, when by Royal Letters Patent, read by the high commissioner of Cyprus at Limassol, that island became a British colony. Our King Richard, Cocur de Lion, took it from Isaac Comnenus and bestowed it on Guy de Lusignac. In 1570 the Turks took it from the Venetians and held it in the stagnation that marks Turkish rule until 1878, when under the Treaty of Berlin, Great Britain undertook its administration, paying an annual tribute to Turkey. Since then the Cypriotes have progressed morally and materially, and it has been for us a useful Mediterranean station, though possibly of less value than Lord Beaconsfield expected. In November, 1914, it was annexed by proclamation. The high commissioner now becomes governor and various reforms will be introduced, such as an increase in the representation of Moslems in the legislative council and the opening to natives of some offices hitherto filled from home.—London Spectator.

Canada At Geneva

Has Become Leader in Humanitarian and Idealistic Matters

The increasing activity that Canada has displayed in League of Nations affairs in the past six months is rapidly putting the Dominion in the position of leader of the "Small Nations Group."

As a result of the absence of the United States from the league, Canada has become more or less a leader in humanitarian and idealistic matters. Her situation geographically makes her a natural arbiter when national animosities, racial prejudices or traditional policies are involved.

The Canadian headquarters in Geneva, which are characterized as "Dominion of Canada advisory office, accredited to the League of Nations," is situated on what is now known as "Diplomatic Row."

Woman Makes New Motor-Cycle Record

Averaged Sixty-eight Miles An Hour In Race Near Paris

Mrs. Stewart, wife of Lieutenant-Colonel R. N. Stewart, established a record for the 250 miles on a 346-h.p. motor-cycle at the Linas-Mothery motor racing track, near Paris, accomplishing the distance in 3h. 35m. 22s. The previous record was 3h. 46m. 25s.

Mrs. Stewart's average speed was over sixty-eight miles an hour.

Mrs. G. M. Stewart is the holder of the double twelve hours record at Brooklands, London, and was once described as a "frail little woman with bobbed hair." She served as an ambulance driver with the Russian army during the war.

Doles Retard Immigration

Many English Boys Not Anxious to Seek Employment

That the work of securing suitable young men and boys to come to Canada as farm laborers was seriously retarded on account of the unemployment doles paid in Great Britain, was the statement made by Col. Hemmertz, chief secretary for immigration of the Salvation Army, who is in Canada from London, England. "As soon as boys leave school," he said, "if they cannot find work, they are paid the dole, and this year there are 36,000 young boys in Britain who are satisfied to get doles instead of employment."

He Wasn't Satisfied

Young Jack had just returned from a painful interview with the minister, to whom he had said, in reply to a question, that there were 100 commandments. Upon meeting another lad on his way to the minister's he said:

"An' if he asks you how many commandments there are what will ye say?"

"Say?" queried the other lad, "Why, ten, of course."

"Ten?" reiterated the first youth in scorn. "Ten! Ye will try him w' ten? I tried him w' 100 and he wasn't satisfied."

Laziest Job In World

"Breaking in" meerschaum pipes is a "profession" in Paris in which more than a score of men are employed. All they have to do is sit and smoke their pipes all day, so it's about the world's laziest job. "Breaking in" five pipes is a good day's work.

One-Lamp Car Is Menace

One of the most dangerous things you meet on the road at night is the car with only one head lamp lighted. When such a machine approaches it is a good idea to give it lots of room. You can't tell which of this motorist's lights is gone.

Health-Building Holidays

Canadian Medical Association Tells How to Make Most of Summer Rest

The holiday season is once more upon us, but people who go off on vacations ought to take as their motto "Safety First."

A right kind of annual holiday is one of the most important of our social institutions, but a wrong kind may easily have worse effects than sticking year in and year out to the "daily task, the common round."

A proper holiday should be a time set aside for the building of that reserve of health and bodily vigor necessary to carry us through the work periods of the year. It should be strictly recreational in the sense that it re-creates, leaving our bodies in a healthier, sounder, fitter condition than before it was taken. Right and regular holidays are necessary for men, women and children, and if they can be accompanied by a complete change of surroundings, so much the better. A change is as good as a rest. This does not mean that you should go enormous distances, it does not mean that you should be utterly idle, nor, on the other hand, that you should apply yourself strenuously to sports.

It does mean that, if possible, you should go to some wholesome locality, that you should live as much as possible in the open air, should relax, should forget the nagging worries of the work-a-day world, should eat the freshest of foods, and should rest or play in the way best suited to bodily needs and mental tastes.

Empire Solidarity

Dominion Would Give Help Voluntarily Should Britain Need It

How often a phrase which has a happy value loses its strength and appeal in being made hackneyed by over-stress and by being too often put into harness. Such is the case of "Solidarity of the Empire," which meaning much is made to mean little by the cheapening of its value in the way it is accustomed to be dragged forth at all and sundry times and seasons. This is no more evident than in the way it is being used today in connection with the proposed security pact in regard to the Rhine and Canada's attitude towards it.

If Great Britain enters into certain obligations as she sees fit in her wisdom, it does not mean that the various dominions should be morally coerced into entering into the same obligations, nor would Great Britain expect it. Should the Government of Canada sign any such pact, and should war result from a violation of the pact by either France or Germany in crossing the Rhine, then by that pact a government would be binding the country to a war which needs the sanction of parliament. Such a course is not in keeping with the meaning of the Commonwealth of Free Nations as our empire is defined to be, nor with the meaning of nationhood of the individual portions of the empire.

Should Great Britain at any time have the need of Canada's help, it will be given voluntarily. Of this there can be no doubt.—Lethbridge Herald.

Greek Gives Away Profits

New York Confectioner Distributes Surplus Following Annual Custom

There was a festive week recently for the residents of one block on the lower east side of New York, for John Doukas, a confectioner who came to this country from Greece 23 years ago, followed his annual custom of giving away all his year's surplus profits.

It has been a banner year for the Doukas confectionery, and the annual custom was distributed with greater lavishness than usual. Decorations were up all along the block and the week of giving reached its climax with a big party.

Doukas, in accordance with his religious beliefs, each year distributes all his profits above the simple needs of himself, his wife and seven children. Among other things there were 10,000 boxes of candy to be given away, and other gifts to be distributed by motor truck among the inmates of 25 charitable institutions. The children and mothers of the neighborhood came in for their share of gifts, and a brass band added to the gaiety of the celebrations.

Doukas began business on the lower east side with a 25-cent bunch of bananas, as all his stock. Today, in addition to his other charities, he provides for 100 orphans in an institution of the Prophet Elias Society, and believes it his duty to die poor.

No Such Thing

Let the nonagenarians and centenarians have all the fun they want in discussing their youthfulness. Still it will have to be admitted that one never hears such an expression as forty-five years young or fifty years young.—Pittsburgh Post.

ECLIPSE FASHIONS
Exclusive Patterns
by Hazel Bayne

A Quaint Little Bloomer Dress

Frocks for little folks are becoming more interesting every day, and there is almost as great variety as for the grown-ups. What little girl would not adore this quaint and winsome little bloomer frock No. 1025? It may be made of gingham, chambray, percale, cotton rep or the dainty, patterned English prints. The kimono sleeve upper portion is attached to two semi-circular skirt portions, forming an apron effect, and tied at either side with bows of material or ribbon. The pattern also includes bloomers gathered into knee-bands. Elastic is inserted at the waist. The pattern is cut in sizes 4 to 10 years and requires 1½ yards of 32-inch material for the dress and 1¼ yards for the bloomers.

Author Proved His Assertion

Successfully Smuggled Cargo of Arms Out Of England

After "smuggling" a cargo of guns out of the country "under the very nose of the authorities," Augustine Muir, the young Scottish novelist, returned to London.

Between midnight and daybreak, Mr. Muir "ran a cargo" of discarded aeroplane and machine gun parts in approved smuggler fashion. The contraband was taken to the Essex coast by motor and shipped in the darkness aboard a fast motor boat, which then showed a clean pair of heels. After a dash into the North Sea the expedition went back to Harwich, where Mr. Muir landed near the customs at eight o'clock and, "declaring" his cargo, dumped it in the sea.

The adventure was the outcome of a wager by a London editor that the smuggling episode in Mr. Muir's novel, "The Third Warning," was outside the range of possibility. "My little adventure," said Mr. Muir, "shows in a practical way the folly of reducing the personnel of the coastguard to the extent that is being done."

The Worlds of Empire

We are as a nation only dimly aware of the golden chances we possess of calling in these new worlds to redress the balance of the old. Let us have vision. Let us realize that here is the true solution of our unemployment problem. Let the old country go to the aid of the new countries which are ready to feed its millions and to provide it with new markets for its merchants and its manufacturers. Forget Europe! Remember the Empire!—London Daily Express.

The Difference

Teacher: "Of course you understand the difference between liking and loving."

Pupil: "Yes, miss; I like my father and mother, but I love pie."

Both English

"Don't you know the King's English?"

"Yeah! And so is the Prince of Wales!"

Queen Mary's Birthday Gifts

Prince Sent Wonderful Ostrich Feathers From South Africa

Queen Mary received a shower of birthday presents and greetings on her 60th birthday.

What presents the Queen gets for her birthday is a problem that has always intrigued the inquisitive, and this year, for some reason, the veil has been slightly lifted from the array of packages and parcels that (metaphorically, may be), awaits Queen Mary on her birthday breakfast table.

David sent his presents a few days too soon, but they were none the less welcome for the reason that they were some magnificent ostrich feathers wonderfully colored and shaded, all the way from South Africa. King George gave his consort a wonderful emerald ring set in platinum—a setting that appeals to the Queen immensely for the majority of her private jewels, and all the state jewels are set in gold. Princess Mary gave her mother some old lace—and the gifts of Prince George, the baby (and, it is whispered, the favorite of the Queen), included some of the latest gramophone records.

Finger Prints Rescue Him

Man Almost Jailed By Remarkable Likeness to Criminal

Arrivals of finger prints by aeroplane mail across country resulted in Douglas MacKenzie, who went to New York from Winnipeg to be a movie actor, being freed, instead of starting a five-year prison term, because of his remarkable resemblance to a criminal.

The prints came from Oakland, California, where the ex-convict had at one time been under arrest.

In suspending sentence, Judge Mancuso remarked upon the amazing resemblance between the two men, even to the smallest detail, with the exception of the finger whorls.

The judge said: "In the old days, on the strength of these almost conclusive proofs that you were he, I should have sent you to prison. The long distance telephone, the radio, and the aeroplane have all assisted the court in checking up your record and in determining that you are not that MacKenzie. The finger prints show that."

Sleeping Sickness Old Disease

Now Down To Western World Until After Flu Epidemic

Sleeping sickness can be traced back through history to a date before Herodotus, according to physicians. It did not become an acute problem in the United States, however, until after the flu epidemic. In New York City since then there have been from two to five deaths a week reported from it.

Following the first outbreak of the disease, Surgeon General Blue, of the federal health service, appointed medical officers to study it. Dr. H. F. Smith, of this commission, found evidence of relationship between sleeping sickness and influenza, but gathered little data which could be used for diagnosis. German scientists have reported the discovery of a new drug which cures the African sleeping sickness, but little is known with assurance about the treatment of the encephalitis lethargica. Its mortality rate is nearly 50 per cent. of those infected.

English Girdling World

In Every Country Some People Understand the Language

The New York Times quotes a German professor in a Berlin language school; overseas on a visit, as making the rather remarkable admission—for a German—that there is no need to invent for general or universal use a new language, since English already has taken that position. Almost beyond question he is right when he says that already the person who speaks only English can get along fairly well in any part of the world, as everywhere he will find those who can understand him and who can make themselves understood by him. Once it was French that had, or more or less closely approached, that position, but English almost everywhere has superseded it as the second language of everybody who has a second language.

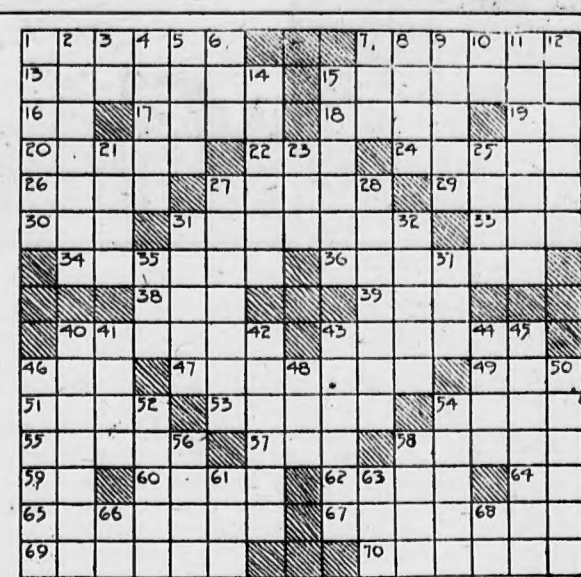

Editors to Visit Alberta

It was recently announced that the Agricultural Editors Association of the United States, including representatives of one hundred of the largest farm journals in the United States, will visit Alberta in September, spending a day at Edmonton and other points of interest in the province.

Prohibits Sunday Bathing

Announcing that they were "trying to set an example," Peterboro (Ont.), city council has prohibited Sunday bathing and Sunday band concerts.

OUR CROSSWORD PUZZLE

Horizontal

- 1—Sums.
- 7—Unspun thread.
- 13—A medicinal plant.
- 15—Spendthrift.
- 16—Right (abb.).
- 17—A garment.
- 18—A point of the compass.
- 19—A continent (abb.).
- 20—Swift.
- 22—Policeman.
- 24—Canvas shelters.
- 26—Equal.
- 27—Closes.
- 29—Debauchee.
- 30—Period.
- 31—Like vinegar (pl.).
- 33—Sin.
- 34—Closes.
- 36—Kine.
- 38—Sly.
- 39—Girl's name.
- 40—Entertains with food or drink.
- 43—Wrench.
- 46—Personal pronoun.
- 47—Seals.
- 49—Negative.
- 51—Held back.

Vertical

- 1—Covered with a black sticky substance.
- 2—A geometrical figure.
- 3—Toward.
- 4—Blacksmith's implement.
- 5—Fibbed.
- 6—Thoroughfare (abb.).
- 7—Mineral spring.
- 8—For fear that.
- 9—Pierce.
- 10—Advertisement (abb.).
- 11—Dare.
- 12—Rubber.

- 14—One who draws with a dry point.
- 15—Putrid.
- 21—Top of the head.
- 23—Not at home.
- 25—Man's name.
- 27—Perfumed.
- 28—Hasten away.
- 31—Open spaces.
- 32—Noted players.
- 35—Mimic.
- 37—Beverage.
- 40—Playhouse.
- 41—Hole.
- 42—Pace.
- 43—Sitting.
- 44—In.
- 45—More clamorous.
- 46—Stretch out.
- 48—Half a score.
- 50—General courses or directions.
- 52—Small gull-like birds.
- 53—Lawmaker.
- 54—A theatre box.
- 58—Exist.
- 61—A beverage.
- 63—Veterinary (abb.).
- 66—Like.
- 68—Toward.

Should Understand First Aid

Auto Accidents Often Unnecessarily Fatal Says Chicago Doctor

That every man or woman who drives an auto should understand simple first aid methods is the firm conviction of both Doctor Herman Bundesen, Chicago's health commissioner, and Chief of Police Collins. "Every year throughout the country, thousands of people unnecessarily lose their lives through automobile accidents, because those who could be of aid at the time of accident become panicky and lose their heads when there is a cut artery. If they understand the simplest rudiments of first aid, a handkerchief and a pencil or ordinary stick of wood could be used as a tourniquet, thus stopping hemorrhage until medical help arrived," said Doctor Bundesen. "The autoist especially is in need of first aid knowledge. Whether in the city or enroute, he should be provided with a compact first aid kit. After spending a short time studying the rules of first aid, the average person can intelligently render help."

Made Interesting Discovery

Students Find Wonderful Caves Among Yorkshire Hills

Two students spending their summer holidays among the Yorkshire hills happened to survey one morning the rugged slope of the great Ingleboro Mountain through their field glasses. They saw, half-hidden among the bracken, a narrow slit in the rock. They blasted away a couple of thousand tons of limestone, and in the heart of the mountain discovered a roaring river passing through crystal caves. In lofty chambers, curtained with stalactites of orange and white crystal, are cascades of clear water, which have splashed down for countless ages. At one point the river bed widens out and forms a long subterranean lake. This portion is not yet opened up, but excavation is being carried on.

Names of Cheese Invited

The Dominion dairy and cold storage branch, Ottawa, invites suggestions of names for the following types of cheese:

- 1—Small-sized Canadian cheddar.
- 2—"Processed" pasteurized cheese (commonly known as Kraft from the name of a maker) put up in 5 pound and 1 pound loaves or in tins.
- 3—Cheese which is made from ordinary cheese passed through a grinder and packed in jars or cartons.
- 4—Any other type of cheese that is not properly named.

The largest turbine ever built recently was set up at Niagara Falls. In a year it can do the same amount of work as 9,000,000 men.

The metric system originated in France about 1790.

Coaching In London

Costs About As Much As Running a Yacht

Coaching has not diminished by any means in England because of the popularity of the automobile. This form of sport appears to appeal even more than formerly to the woman of today, and there has been a move on foot recently to admit women members to the Coaching Club, as they have never had a coaching club of their own. Women have long been eligible for "competitions, however, and have successfully appeared in coaching and harness classes at horse shows for many years.

Coaching, or at least driving one's own coach, is an expensive amusement today, though no more so than the ownership of a fair sized yacht. A coach at the present time costs from \$3,500 to \$6,000. A good horse may be had from \$750 to \$1,750, but the cost of a perfectly matched team is out of all proportion to the individual value of the four horses.

Conducts Unique Marathon

California Church Members Read Bible in Sixty-nine Hours

A Bible marathon was recently concluded under the auspices of the First Methodist Church at Yucaipa, Cal. It was demonstrated that the Bible can be read from cover to cover in sixty-nine hours and fifteen minutes by any ordinary church congregation with a taste for the task. A throng of several hundred persons was in the church when the marathon swung into its last lap—the Book of Revelation. All joined the readers in pronouncing the final verses of the book, then concluded the long service by singing the Doxology and adopting unanimously a resolution to make the Bible marathon an annual event in this little foothill town.

Sneeze Gas Used

Sneeze gas is being used to rout stowaways from the holds of ships at Manila. More than a dozen men recently were driven off one ship by the gas.

Oranges and lemons are believed to contain a higher percentage of stored sunlight than any other fruits.

Place potatoes in pot and cover over with water.

Being pure SMP Enamelled Ware, it comes to boil far quicker than other wares.

When finished drain off water through strainer spout. Handle locks cover on No scalding or scorching.

The potatoes are neatly, whole, perfectly boiled. Serve with butter, in covered dish.

SMP ENAMELED POTATO POTS

Canada's Tied-Up Resources

(Third Article)

In all articles appearing in this column, it is sought to be optimistic and constructive, rather than pessimistic and destructive, because only so can any service of real value to the community be rendered. Having in the previous two articles on "Canada's Tied-Up Resources" outlined the situation which confronts every citizen and lover of this Dominion—and an extremely critical situation it unquestionably is—some attention should be devoted to finding a solution. It, indeed, one can be found. But found it must be if Canada is not to continue in the doldrums for many years to come, cheated of the position among the nations of the world which Nature intended (through the variety and abundance of its gifts) this country to occupy.

The first essential to a solution is an awakening of the people of Canada to a full realization of their country's present position in respect to its resources. A second, and equally important essential, is frankness and courage on the part of public men of all parties in facing and grappling with the problem confronting Canada.

It is necessary that present shibboleths, pet policies, and partisan nostrums be completely scrapped and relegated to a forever buried past. Instead of continuing to waste time debating in just what manner the stable can best be locked now that the horse is stolen, each interested citizen in Canada should unite with other interested citizens in an endeavor to, if possible, recover the stolen horse.

The battle for and against embargoes, or export duties, on pulp wood and pulp, on waterpowers and electric energy, on nickel and other ores, is being waged with vigor. It is largely beside the mark. At best embargoes and export duties are but half measures and likely to result in reprisals. They do not go to the basic root of the whole trouble, namely, that an enormous amount of Canada's natural resources have passed from Canadian ownership and control into foreign control, and that control is being exercised to the detriment of Canada, checking development, employment, growth of population and industry, and making full prosperity impossible.

The last thing to be advocated in this column is repudiation of obligations, whether national or entered into through private contract. Consequently no such thing is expressed or implied. It must be recognized, however, that when the natural resources of any country—the property of all the people—pass into private ownership and control, there also passes to the new owners an obligation to the people and country who were the original owners. That obligation, expressed in written contract or not, is that the resources in question shall be developed for use of the people as a whole, thereby providing for their wants and advancing the welfare of the country at large. If this obligation is not carried out honestly and to the full ability of the new owners, then the original owners have right and justice on their side in demanding either the discharge of such obligation or a return of the property.

With such huge issues at stake as the success of our railways, the prosperity of all our industries, employment for our people, increased population and wealth necessary to carry our national burdens and pay off our war debt, with, in fact, the whole future of Canada as an economic and national unit hanging in the balance, the people of this Dominion dare not allow its national and natural resources to remain indefinitely tied up awaiting the convenience of foreign interests for their development for use.

The Dominion Parliament and the Legislatures of those Provinces which have control of their natural resources would be acting well within their undoubted rights if they gave notice to all holders of undeveloped natural resources that development must be begun and prosecuted with vigor, not a mere surface scratching but real development consistent with the nature and extent of the resources held, and that, failing such development within a stated time, title to all such resources would revert to the people as represented by the Crown.

Such action could in no sense be construed as repudiation; it would rather be a proper enforcement of the rights of Canada and the Canadian people, and a very necessary recognition of Canadian manhood and independence and emancipation from a galling servitude which, if continued, sounds the death-knell of the Dominion.

Straw Gowns Are Latest

Straw dresses have made their appearance in Paris. They are fabricated of Madagascan "railla" which is used to be employed for trimming hats. The gowns are delightfully cool and hygienic because the openwork material allows air to circulate over the skin.

The straw gowns may be dyed any color desired, and are expected to have a great vogue in the country and at the seaside.

It is estimated by artists that only one woman in thirty has perfect feet.

Full Directions

The chemist was becoming wearied. He had been explaining and pricing dozens of articles to the shopper, who didn't really want to buy anything at all. Finally she picked up a bottle. "Is this Pest Exterminator reliable?" she asked. "How is it applied?"

"You take a tablespoonful every half-hour, ma'am," the chemist replied with fiendish emphasis.

No more questions were asked.

How busy isn't as important as why busy. The bee is congratulated. Mosquitoes are swatted.

Britain Makes Another Payment

Washington Receives Over Sixty-Eight Million For Semi-Annual Interest

The U. S. treasury received payments from Great Britain, Finland, Hungary, Lithuania and Poland on account of their funded indebtedness to the United States.

The British payment, a semi-annual remittance on interest, amounted to \$68,310,000. It was paid in 23 per cent. treasury certificates with a \$75.94 payment in cash necessary to adjust the interest accrued.

The total payment from Finland, \$133,650, was made in cash. Hungary funded half of its third semi-annual payment of interest, and paid the other half, \$11,905.69 in cash. Lithuania also funded part of its first annual installment on principal and interest, and turned over to the treasury \$75,225 in cash, of which \$15,225 was for interest and \$60,000 for principal. This payment also was in cash.

The first payment on account of the Polish Government amounted to \$500,000, but approximately \$126,000 was turned over to the treasury last January, and the remainder was remitted on June 15 in cash.

2 Years' Backache Subdued by "Nerviline"

"Backache was the bane of my life, and for two years I was so lame as to be unfit for work," writes E. S. Sloane, from Georgetown. "While in Smith Bros' Drug Store, I heard of Nerviline, being a wonderful pain-destroyer, so I decided to try Nerviline. Thanks to Nerviline, my two years' backache was rubbed away, and to-day I am perfectly well."

All those who suffer from weak, aching backs, those whose muscles are stiff, whose joints are swollen, let them try Nerviline—the liniment that never fails. 35¢ at all dealers.

Big Coal Discovery

900,000,000 Tons of Coal in B.C. Section

The recently discovered coal area at Hat Creek, on the Pacific Great Eastern Railway, north of Vancouver, is declared by investigators to be one of the greatest in the world, and to contain 900,000,000 tons. It is estimated that four square miles of the district are underlain by the coal measures.

BABY'S OWN TABLETS ALWAYS IN THE HOME

Once a mother has used Baby's Own Tablets for her little ones she always keeps a supply on hand, for the first trial convinces her there is nothing to equal them in keeping children well. The Tablets are a mild but thorough laxative which regulates the bowels and sweetens the stomach, thus driving out constipation and indigestion, colds and simple fevers, and making teething easier. Concerning them, Mrs. Saluste Pelletier, St. Dumas, Que., writes:—"I have used Baby's Own Tablets for the past ten years and am never without them in the house. They have always given the greatest satisfaction and I can gladly recommend them to all mothers of little ones." The Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Saskatchewan Postmasters

A. C. Kolb, of Herbert, was re-elected president of the Saskatchewan Postmasters' Association at the closing session of the second annual convention at Moose Jaw, and W. J. Coleman, of Vanguard, was elected vice-president. C. D. Griffith was re-elected secretary-treasurer, and Mrs. R. L. Pettigrew, Beechy, with R. A. McKinley, Hatton, were appointed to the executive. The 1926 convention will be held at Saskatoon.

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Exterminator is an excellent medicine to destroy worms.

New Grain Act

Would Make Provisions Uniform Throughout the Dominion

Concurrent legislation to make provisions of the new Grain Act uniform throughout Canada and place them beyond question on the ground of constitutionality, should be asked of the Provincial Governments, especially those of the western provinces. This is the tenor of a resolution adopted by the agricultural committee of the house at Ottawa.

The resolution was sponsored by J. L. Brown, Progressive, Leduc, Man. It asks the Federal Government to take up with the Provincial Governments the advisability of passing such concurrent legislation at the earliest possible date.

The Prince of Wales is now described as "John Bull's Travelling Salesman." What is more, he delivers the goods.

Minard's Liniment for Sprains

Use it wherever the recipe calls for milk.

Free Recipe Book—Write the Borden Co. Limited, Montreal.

Farthest North Surveys

Department of the Interior Lays Out Plots at Six Posts in Arctic Archipelago

Six different posts in the Franklin district of Northern Canada have now been surveyed for the Royal Canadian Mounted Police or for trading companies, as one of the results of the 1923 and 1924 Arctic expeditions under the North West Territories and Yukon branch of the department of the Interior.

Plans of these surveys are prepared by the topographical survey branch from the surveyor's field notes for filing with the registrar of the North West Territories. These surveys were made at Craig Harbor, Dundas Harbor, Strathcona Harbor, Ponds Inlet, Cumberland Sound and Rice Strait, by F. D. Henderson, D.L.S. The last named post on Ellesmere Island, being only 750 miles from the North Pole, is the most northerly point at which any official survey has ever been made.

For Catarrh.—It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can outwardly. Sufferers from catarrh will find that the Oil when used according to directions will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

Does Your Baby Cry?

Is it nervous and restless during hot weather? If so—most likely his food is not agreeing with him. If you cannot nurse your baby, or if it does not gain upon your breast milk give him Borden's Eagle Brand Milk—the food that has successfully reared hundreds of thousands of babies. Easy to prepare—just add boiled water as directed.

In this paper from time to time you will find an advertisement of Borden's Eagle Brand Milk, a food that has raised more healthy babies than all the prepared infant foods combined. Cut out the advertisement and mail it to The Borden Company, Limited, Montreal, and they will send you, free of charge, instructions for feeding your baby, and a Baby Welfare Book and Baby Record Book. Or just write the Company, mentioning this paper, and they will be sent.

Wretched from Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dissipates the cloud by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and mental happiness.

Canal Saves Auto

An auto standing on a street at Phoenix, Arizona, suddenly burst into flames. The owner pushed it into an irrigation canal. The flames were extinguished, another car pulled it out, and he drove off with only slight damage.

Shave in Comfort With Cuticura Shaving Stick

This delicately medicated antiseptic Shaving Stick produces a creamy lathering effect enabling tender-faced men to shave without any irritation, even twice daily. It leaves the skin smooth and fresh and makes shaving a pleasure. Cuticura Shaving Stick is an ideal after-shaving powder.

Sample Book Free by Mail. Address Canadian Dispensary, Ltd., Montreal, P.Q. Send 10¢ in stamps for Sample Book and Cuticura Shaving Stick 25¢.

World's Most Popular Invention

Automobiles Gaining Rapidly On Telephone According to Statistics

Is the telephone or the automobile the more popular of the world's recent inventions?

Statistics issued by one of the big telephone companies in the United States indicate that in actual numbers in use the automobile is gaining rapidly on the telephone.

They disclose that there are now 2,000,000 more motor cars in use in the United States than telephones—17,749,236 automobile and 15,369,454 telephones. In other words, there are today 100 motor cars for every eighty-six telephones in that country. No other countries yet have as many motor cars in use as telephones, though in Australia and Great Britain, among the larger countries, the ratio is nearly equal. Australia has 257,477 telephones and 205,000 motor cars. Great Britain has 1,045,928 telephones and 778,211 automobiles. Each probably will have more motor cars than telephones within two years.

Japan, Poland and Hungary are the only great countries where there are more than ten telephones to each motor car. Japan has almost no good roads, which largely accounts for her exceedingly low ratio. Poland and Hungary still are suffering heavily from the ravages of war. So are Germany, Austria and Czechoslovakia—other countries where the ratio is at greater variance than it would be under normal economic and political conditions.

Says Canada Is Now On Firm Ground

Has Made Rapid Recovery From War Effects Is Opinion Of Financial Expert

"Canada has climbed out of the slough of the post-war years and is now on firm ground ready to move forward," declared Col. A. E. Fitzpatrick, Toronto, general manager for Canada of the United States Fidelity and Guarantee Company and president of the Fidelity Insurance Company of Canada, who was in Regina recently on his way east from a visit to the coast.

"All the way from Toronto to Victoria I found that empty houses and empty stores had been absorbed," he added. "This speaks well of the fundamental soundness of any country, particularly when it is remembered that after the boom of 1895, Toronto had streets of empty houses and empty stores for many years. It took far longer to absorb the empty houses and stores on that occasion in Toronto than it has taken throughout Canada following the war."

"Farmers are now making a good profit for the first time for four years and when economic conditions make it profitable for people to come to Canada I cannot help but feel confident that the probabilities are that the stream of immigration will flow to the Dominion in an ever increasing volume."

Set British Precedent

Members of British Parliament Shed Coats During Hot Weather

The question whether members of parliament should work in shirt sleeves, which arose in Ottawa during the recent heat wave, according to cables printed in London, was answered in the Mother of Parliaments when during a sweltering session in committee, members shed their coats and the chairman doffed his hot and cumbersome wig. Of course, this was only on the less formal committee sessions and no such lapse from dignity would be allowed while the speaker is in the chair. Still it was a breakaway from precedent which is arousing a good deal of interest.

Literary Progress In Canada

Canadian Literary Section One of the Features at Wembley

Interesting evidence that Canada is making progress not only along material lines, but in the world of letters, is found in the fact that a Canadian literary section is one of the features of the Canadian pavilion at the British Empire Exhibition. The exhibit represents both French-Canadian and English-Canadian literature from the earliest dates down to the publications of 1924.

Will Celebrate Kruger's Centenary

The 100th anniversary of Paul Kruger's birth is to be celebrated in South Africa next October. Paul Kruger, formerly president of the Transvaal Republic, was born at Colesberg, Cape Colony, on October 10, 1825. He died in Switzerland in 1904. He was president of the Transvaal during the Boer War, and under pressure of Lord Roberts' troops, had to flee in 1900.

Wise is the individual who prepares for the future by studying both the past and the present.

Speculate On Canada's New Governor-General

Officials in London have already formed definite views as to the qualifications necessary for the important and responsible post of governor-general of Canada. The name of Prince Henry is again being mentioned, and it is noteworthy that he alone of all the Princes was present with his august father when the latter opened the new Canadian building on Monday, June 29, while his interest in all things Canadian has been patent for some time past. One thing can be definitely said with regard to the appointment, if Canada has any particular predictions for any particular person they have only to explain their preference in order to have it carried into effect. It is admitted that it will be a difficult task to find a man outside the royal family who is invested with sufficient prestige and influence to make the bonds between the motherland and Canada more secure.

Canada's Problems

Sir Robert Falconer Addresses Educationists at a Dinner in London

Many educationists of note attended the dinner given by the Canada Club of London in honor of Sir Robert Falconer, president of the University of Toronto.

Sir Robert submitted that Canada's three greatest problems were: First, the internal unification of the Dominion; second her future population; third, the complaint that Canada is reserved in her attitude towards Britain and the empire.

The western and maritime provinces are just now loudly expressing discontent and it is certain that they have received less from confederation than they legitimately expected, he stated.

Egyptian Government Wants Mosque Restored

Offers Prizes to Architects of World For Designs

The Egyptian Government has instituted a competition open to architects of any nationality, for the reconstruction of the mosque of Amrou in Cairo as it was in days of its greatest splendor.

Prizes will be awarded of \$12,500, \$5,000 and \$2,500 respectively for the best three plans submitted to the Egyptian minister of religion, by January 1, 1927, accompanied by treaties on the subject. The mosque was built in the year 633 by Amrou, the Arab conqueror of Egypt, and was at its highest splendor between the tenth and fourteenth centuries.

House Of Commons Makes Decision

Holds Fleas Are Not Trained Animals Within Meaning of Act

After lengthy debate the British House of Commons has decided that trained fleas are not trained animals within the meaning of the act animals.

The commons went further and decided that fleas could not be trained at all, and then wound up the argument by deciding that fleas are not animals.

Exhibitors of troupes of trained fleas protested at being subjected to the act which regulates the care and handling of horses, dogs, monkeys, in performance. The exhibitors themselves admitted that the fleas could not be trained.

R.C.M.P. Officer Transferred

Regina Depot Commandant Goes To Vancouver

Lt.-Col. A. W. Duffus, officer commanding the depot division of the Royal Canadian Mounted Police, Regina, is being transferred to Vancouver, where he will command the Scarlet Riders' station in British Columbia. He has held the Regina command two years.

Assistant Commissioner R. S. Knight will take over Col. Duffus' present command. The new commanding officer is well known in Regina, having lived there a number of years before his transfer to the coast.

Grain Inspections At Calgary

Since the beginning of the present shipping year, approximately 28,000,000 bushels of grain have been inspected in Calgary. Of this quantity 24,000,000 bushels were wheat.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

The most perfect form of battery is to say to people what they think of themselves.

Very often a sound investment is just a bit of speculation that turned out all right.

Minard's Liniment For Neuralgia

Slip a package in your pocket when you go home to-night.

Give the youngsters this wholesome, long-lasting sweet—for pleasure and benefit.

Use it yourself after smoking or when work drags. It's a great little freshener.

WRIGLEY'S JUICY FRUIT CHewing Gum

SEALED TIGHT KEPT RIGHT

Warren Harding Memorial

Statue to be Unveiled at Vancouver in September

An international memorial which in many ways is unique, will be unveiled in Vancouver on September 17 next, to perpetuate the remembrance of the late President Warren G. Harding's visit to Canadian soil in July, 1923. The unveiling will take place after the international convention of Kiwanis Clubs under whose auspices the memorial is being erected. Although the statue was first ordered to be built by a committee acting on the initiative of the Kiwanis Club of Vancouver, the subscription list was open to clubs in the United States as well, with the result that the objective of \$55,000 was soon over-reached and the United States clubs insisted that they bear the entire expense, the amount subscribed by the Canadian clubs being returned to them.

The memorial will mark an event of which history offers no duplicate—that of a United States president making an address on Canadian soil during his term of office. President Harding visited Vancouver for a few hours on his way south after visiting Alaska in July, 1923, and was given an impressive reception. His address, in which he made an eloquent plea for continued friendship between the English-speaking peoples and practically between Canada and the United States, was listened to by over 20,000 people and aroused considerable interest throughout the British Empire.

Aeroplane Will Be Speedy

Four Hundred Miles Per Hour Is Claim Of German Inventor

An aeroplane, said to be capable of a speed of 400 miles an hour, is being built and will be entered into the races for the Pulitzer trophy next October, according to Dr. Otto A. Koller, German aeronautical expert, now in New York.

Dr. Koller, the inventor, said his biplane will be equipped with an 800 horsepower engine with a total wing spread of 26 feet.

Life was safer when all the hunking was done by geese.

For COLIC AND CRAMPS PAINS IN THE STOMACH There's Nothing Equals

D'FOWLER'S EXT-O-F WILD STRAWBERRY

It has been in use for over 80 years; its action is pleasant, rapid, reliable and effectual, and relief comes promptly. "Don't accept a substitute." The genuine is put up only by The T. Milburn Co., Limited, Toronto, Ont.

LARGE Manufacturing Firm, selling concentrated flavoring extracts in tubes, direct to the houses, wants country Managers throughout the West. Whirlwind sales and repeat orders everywhere. Here is a winner. Write quick. Territory going fast. Craig Brothers, Des Moines, Iowa, Ontario.

Children Cry for

Fletcher's CASTORIA

MOTHER—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Purgative, Teething Drops, and Soothing Syrup, especially prepared for Infants, in arms and Children all ages.

To avoid imitations, always look for the signature of *Charles H. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

The Inter-Allied Debt Question Is Thrust Still Further To The Fore

Paris.—The French Government is preparing to make an announcement upon the United States debt question within a few days. It will probably be limited to scarcely more than naming the mission to go to Washington. French debt negotiations with the United States will be kept strictly apart from those with Great Britain.

The inter-allied debt question has just been thrust still further to the fore by the receipt from London of a new memorandum suggesting that France make an offer for settlement of her debt to Great Britain even if only a provisional one.

The memorandum, signed by Rt. Hon. Austen Chamberlain, the foreign secretary, takes cognizance of France's plan in connection with her United States debt by stating that Great Britain has no desire to interfere with negotiations which France might initiate with other creditor powers.

Mr. Chamberlain, seizes the occasion, however, to state the principle that Great Britain feels that she is entitled to treatment on an equal footing—that is, should France sign an agreement for payment of part of her debt to the United States, the British would expect a proportionate reimbursement of the sums due them.

The British memorandum is being studied by Foreign Minister Briand and Finance Minister Calloix, who not long ago were given authority by the cabinet to initiate negotiations for settlement of the inter-allied debts.

To Reconstruct

Santa Barbara

City To Be Re-Built Along Lines Of Spanish Architecture

Santa Barbara, Calif.—Santa Barbara business men will reconstruct the earthquake-torn area of the city along lines of Spanish architecture, according to a decision reached while the city was recovering from the effects of the blow of the earthquake. In restoring the city in Spanish architecture, the business men will follow the recommendations of the Santa Barbara Art Society.

French Losses In Morocco

Paris.—The French senate has unanimously voted confidence in the Poincaré Moroccan policy.

Replying to questions in the senate before the vote of confidence, Premier Poincaré said the French losses have been only 400 men killed during the entire present Moroccan campaign. He declared the French Government is anxious to have peace but that "Abd-el-Krim is difficult to handle."

Placer Strike Made

Dawson.—A rich placer strike is reported from the headwaters of the Pelly River, \$2,000 worth of gold dust having been brought in by Indians.

TRY TO EFFECT A UNION OF ALL WAR VETERANS

Ottawa.—Four veterans' associations in Canada already have pledged themselves to the establishment of a united organization as a result of a series of conferences held since the arrival of Field Marshal Earl Haig in Ottawa. Representatives of several other national and local bodies have pledged themselves to carry the proposal for a complete union to their memberships and obtain an expression as soon as possible.

In a statement, Lieut.-General Sir Richard Turner, V.C., Dominion president of the G.W.V.A., who has acted as chairman of the conferences, presented a survey of the results to date. The statement is in part as follows: "Organizations that have been pledged to union of all veterans in Canada include the Great War Veterans' Association, the Canadian Legion, the Tuberculosis Veterans' Association, and the Naval Veterans of Toronto. These groups will continue to function as at present until the unity convention can be assembled.

"The calling of this convention probably will be delayed a few months, as other associations, such as the Army and Navy Veterans in Canada, the Imperial Veterans in Canada, the Veterans' Civil Service Guild, the Grand Army of United Veterans, etc., will be holding conventions during the next two or three months.

W. N. U. 1584

Says Japan Has No Desire To Go To War

Chicago.—Trouble between Japan and Russia is inevitable, unless the Soviet Government ceases its tactics of spreading "Red" propaganda, said Count Michimasa Toyoshima, member of the Japanese House of Peers, who was interviewed here. "Japan has no ambitions, calling for aggressiveness against any nation. Although she is still hurt over the action of the United States in excluding her nationals, Japan has no desire to go to war."

Canada's London Home

Office at Hub of British World Says Manchester Guardian

London.—The London papers, as was to be expected, have extended cordial editorial comments on the formal opening of the new Canadian Building here by the King, and papers published outside of London have been equally cordial in their remarks about the event.

The London Daily Telegraph says: "The Dominion of Canada at last has secured a home in London worthy of its past, present and future. The re-modelling of the building for its use has improved the amenities of Trafalgar Square, for which the people of London and, indeed, the whole Empire, owe a debt of gratitude to the Canadian people."

The Manchester Guardian, noting the tendency of the dominions to plant their offices as near as possible to the heart of London, says Canada certainly has secured a home the closest of all to the heart of the metropolis; her admirable building is right in the hub of the British world, where everyone who comes to London will see it, for it is as inescapable as Nelson's monument.

Feels Railway Should Carry Out Agreement

Ontario Will Get Alberta Coal Says Sir Henry Thornton

Ottawa.—Experimental shipments of 25,000 tons of Alberta coal to Ontario will be made in accordance with the original understanding, Sir Henry Thornton, president of the Canadian National Railways, stated in an interview at Ottawa.

Sir Henry explained that since the statement made some weeks ago to the effect that in view of the pending re-organization of freight rates, the National Railway would not be able to carry out the experiment, there had been a conference with officials of the Ontario Government. In this conference it was shown that many persons in Ontario had in good faith committed themselves to the handling of the Alberta coal. Sir Henry stated that when he learned matters had gone so far and the actual commitments had been made, he felt that the Canadian National Railway should carry out its agreement.

Bolshevism In China

The New Canton Government Has Red Tendencies

Canton.—The new government for southern China was formed here by the forces which recently captured Canton.

The new civil governor, Wu Hon-Min, is known for his Bolshevik tendencies.

All foreign consuls here, except the British and French, were invited to a reception held by the new government. There is a general feeling here that further trouble is in the offing.

New Brunswick Elections

Fredericton, N.B.—A definite announcement that the provincial general election in New Brunswick would not be called at the present meeting of the government was made by Premier Veniot. No statement has been made as to when the elections will take place, but the present legislature will lapse in October.

300,000 Homeless In Poland Floods

Warsaw.—Dispatches from Galicia and Techen state that damage wrought by the floods there has surpassed even that of the 1903 inundations.

Three hundred thousand people are reported without shelter and \$2,000,000 relief is needed.

M. S. WATSON

Editor of The Times, Deloraine, Man., and President of the Manitoba Division of the C.W.N.A. Mr. Watson attended the annual convention held in Winnipeg on June 24, 25 and 26.

C.W.N.A. Convention

Most Successful Gathering of Weekly Newspaper Men at Winnipeg

Conceded to be the most successful gathering yet held, the Canadian Weekly Newspaper Association assembled at the Royal Alexandra in Winnipeg for their sixth annual convention on June 24, 25 and 26. Some 400 delegates were in attendance from all over Canada. On the opening day the members were welcomed to the city of Winnipeg by Mayor Webb. The business sessions occupied the better part of three days, and the addresses and discussions were found to be most helpful.

On the second day, at the conclusion of the business session, a visit was made to the Parliament Buildings and to the Manitoba Agricultural College, where the delegates were the guests at a dinner given by the Manitoba Government. Premier Bracken presided and gave an excellent address. Premier Dunning of Saskatchewan also delivered an inspiring address, outlining his views of the work the association is doing in helping to build up Canada as a nation, and his ideals of what Canadian citizenship should be.

Election of officers resulted as follows: President, L. J. Ball, Vernon, B.C.; first vice-president, J. A. MacLaren, Barrie, Ont.; second vice-president, S. N. Wynne, Yorkton, Sask.; and directors: British Columbia, Hugh Savage and Ben Hughes; Alberta, J. McKenzie and L. D. Nesbitt; Saskatchewan, J. McDonald, S. J. Dornan and D. C. Dunbar; Manitoba, J. L. Cowie and M. S. Watson; Ontario, E. A. J. Davies, E. D. Evans, W. E. Masos and D. Williams; Quebec, J. S. Giles and V. Dubuc; Maritimes, H. R. Arnburg and H. B. Anslow. Chairman of circulation and subscriptions committee: R. C. Fabrit, Gladstone, N.S.; chairman of membership committee, C. R. McIntosh, North Battleford, N.S.; chairman of advertising committee, W. R. Davies, Renfrew (Ont.) Mercury; chairman of editorial committee, M. MacBeth, Millerton, N.S.; commercial printing committee, F. B. Elliott, Alliston, Ont.; postal and parliamentary, Lorne Eddy, Walkerton, Ont.; paper, W. A. Fry, Dunnville, Ont.

At the conclusion of the business sessions on Friday afternoon, cars were in readiness, and a tour of the city was made, which ended at Kildonan Park, where the delegates were the guests of the city at dinner.

Lorne Eddy, the retiring president, in returning thanks for the hospitality of the city, said: "None of us will ever forget this visit, and it has certainly widened our outlook, especially those of us who live in the east. I look for great good from the holding of the 1925 convention in Winnipeg."

In the evening a ball was held at the Royal Alexandra Hotel, when the visitors were the guests of the Canadian Pacific Railway.

On Saturday afternoon a trip was made to Grand Beach, through the courtesy of the Canadian National Railway, and in the evening officials of the C.N.R. gave an enjoyable dance at the Fort Garry Hotel to the visiting delegates.

Grain Growers Disapprove

Regina, Sask.—Disapproval of the action of certain western Canadians in parliament in supporting a clause in the revised Canada Grain Act taking away from the farmers the right of determining where their grain should be stored until it is sold, was expressed in a resolution unanimously passed by the executive of the Saskatchewan Grain Growers' Association in session here.

Add To Building

Saskatoon, Sask.—Owing to the increasing demand for package rolled oats the Quaker Oats Co. has found it necessary to add a fourth story to the package building at its mill here, and the addition is now under construction.

GRAVE FEARS OF COAL SHORTAGE ENTERTAINED

Ottawa.—Grave possibilities of an industrial struggle in the anthracite regions of the United States upon the termination of the present wage agreement on September 1, are indicated by the latest reports received from these fields, stated Dr. Charles Camshell, chairman of the Dominion fuel board. Householders, he declared, insofar as was humanly possible, should, therefore, obtain at once supplies of whatever kind of domestic fuel they intend to use during the fall and winter months.

Dr. Camshell pointed out that if trouble developed in the American anthracite coal fields during the coming fall, we would probably be confronted again with the necessity of begging for small amounts of any kind of fuel at any price.

The Oldest Newspaper

Claims Halifax Chronicle Is Canada's First Newspaper

Halifax, N.S.—Claiming for Halifax the distinction of having Canada's first newspaper, the Halifax Morning Chronicle, in its 1925 tourist edition states:

"At 172 Grafton Street stands the building in which was printed Canada's pioneer newspaper, 'The Halifax Gazette'—today 'The Nova Scotia Royal Gazette'—the oldest paper being published in North America. The paper has been published continuously for 173 years and is now the official publication of the Nova Scotia Government."

Mannix Not Molested

Was Allowed to Parade Through Streets of Dublin

Dublin.—Archbishop Mannix, and a group of Australian pilgrims, who arrived here recently were given a great ovation as they passed in procession, accompanied by many bands, through the crowded streets.

The Free State Government has shown no disposition to interfere with the visit of the archbishop, who was refused permission to land here in 1920, by the British authorities, because of his strong sympathy with the Republicans.

France Signs Protocol

Geneva.—A League of Nations official communique announces that Paul Bonecourt, French chief delegate to the recent arms conference at Geneva, has signed for France the conference's protocol against the use of poison gas and bacteria in warfare.

Movie Adonis Gets Black Eye

Milton Sills, darling of the flappers, old and young, and forceful hero of the rapid action film, The Sea Hawk of Romance, got his other day. He has been acting in "The Knock-Out," which was made at Beauchamp in Northern Quebec, and in an encounter with the villain the latter swung a heavy one onto the star's eye which resulted in the usual discoloration. Here he is seen, debonair and smiling, on the Canadian Pacific Windsor Station, Montreal, just back from his strenuous labors and almost recovered. The right eye still shows a faint indication that it has been in the wars. He says it is all in the game and takes the slight offset good-humoredly. During the making of the picture he had the exceptional luck to see the biggest log-jam in sixty years on the Montreal River near Beauchamp, shots of which are incorporated in the film.

S. J. DORNAN

Editor and Proprietor of The Despatch, Alameda, Sask., and Secretary of the Saskatchewan Division of the C.W.N.A. Mr. Dornan took an active part in the proceedings of the annual convention held in Winnipeg the last week in June.

Singapore Base Need

Not Cause Uneasiness

Is Comparatively Minor Establishment Says Earl of Stanhope

London.—The Singapore naval base, as contemplated by the British Government, will be "comparatively a very minor establishment," and there is no question of it being "a great base for concentration," stated Earl Stanhope, civil lord of the admiralty, in the House of Lords, on behalf of the government, during a debate inaugurated by the Labor party upon the projected naval establishment in the Far East. The opposition has asserted that the British naval programme caused much anxiety among other nations, particularly Japan.

The Earl of Balfour, who followed Earl Stanhope on the floor, ridiculed the Labor suggestion, that a large number of other naval bases, dependent upon the Singapore base, would be required.

Big Dominion Day Celebration In London

Music Was Furnished Entirely By Canadian Artists

London.—More than 1,000 people attended the Dominion Day reception at the new Canadian building, July 1. An unusual feature was a musical programme, entirely by Canadian artists.

Hon. G. H. Ferguson, premier of Ontario, spoke of his realization during his present visit of considerable misconception among public men in England of Canada's attitude towards the British Empire. It has been suggested that Canada eventually will become a nation within herself. In Canada, when he hears such a man talk, he is called a "little Canadian." Premier Ferguson proceeded to say he could see no other solution for the present commercial depression than to make ourselves self-sustaining as an empire.

Unusual Honor For Canadian

Chief Justice Anglin Made Bench of Inner Temple

Ottawa.—Rt. Hon. F. A. Anglin, chief justice of Canada, it is announced from London, has been created a bench of the Inner Temple. The chief justice is the first Canadian to receive the honor. The benchers of this inner circle are restricted to four and the honor is an unusual one. A few other distinguished Canadians have been benchers, including the late Sir Wilfrid Laurier. Rt. Hon. L. P. Duff, of the Supreme Court of Canada, is an honorary benchers of Grays Inn.

Canada's Sea Harvest Increases

Ottawa.—Canada's sea harvest increases in value. In May, 1925, \$7,264,600 pounds of sea fish were landed on both coasts and the value of the catch, \$2,832,165, is nearly a million dollars higher than in May, 1924. On the Pacific coast, 1,884,300 pounds of salmon were taken, compared with 927,400 pounds in May, 1924.

Volcano Rocks Colombia

Bogota, Colombia.—Violent eruption of the volcano of Galeras, near Pasto, began with great flames issuing from the crater and large quantities of rocks and ashes covering the surrounding country. Communication with the towns of La Florida and Sonsaca is cut off, and it is expected they have been destroyed.

Mrs. M. J. Burd Dead

Montreal.—Mrs. M. J. Burd, of Vancouver, mother of E. J. Burd, manager of The Vancouver Daily Province, and Richard Burd, member for Alberni in the British Columbia Legislature, died suddenly here of apoplexy, while she was visiting friends.

Two Important Tasks Confront United Church Says New Moderator

Wheat Pool Crop Year For 1924 Ends July 15

Regina.—The Saskatchewan Wheat Pool will close its 1924 crop year July 15, the date set for making the cut-off, it is announced by A. J. McPhail, president. The Alberta and Manitoba pools have set the same date for making their cut-off. "Any grain received at the terminals after July 15 will be treated as though it were part of the 1925 crop," added Mr. McPhail, and an initial payment of one dollar will be made until the initial payment for the 1925 crop has been definitely decided later in the season."

Another Imperial

Parley Suggested

But British Premier Doubtful As To Its Usefulness Just Now

London.—A. C. H. Dixey, member of the House of Commons, has suggested, in view of the danger to the Empire owing to the state of trade in Britain, that representatives of Dominions should be called together to formulate Empire schemes to develop the resources of the dominions and finding work for the unemployed.

Premier Baldwin replied that the government was engaged in furthering, to the best of their ability, inter-imperial co-operation and development of the empire's resources on lines agreed upon at the imperial economic conference of 1923.

He doubted whether, at this stage, the summoning of another imperial conference would materially advance the objects which all were equally concerned to promote.

United Public Opinion

Canadians Can Alter the Whole National Situation Says Byng

Victoria, B.C.—If Canadians would meet on common ground to compose their differences they could alter the whole national situation declared Lord Byng, governor-general of Canada, who is making a tour of the western provinces, during the course of an address before the Canadian Club here.

"If there was a united public opinion," stated Lord Byng, "something would happen. If the east and west could get together in a nice way, if the French and English people could talk differences over in friendly fashion, they could produce a harmony that might be fraught with great probabilities. A united public opinion might take us a long, long way toward freedom from our differences from a sectional point of view."

SUNDAY SCHOOL LESSON

JULY 12

THE GOSPEL IN ANTIOCH OF PISIDIA

Golden Text: Behold, I have given him for a witness to the peoples, a leader and commander to the peoples. Isaiah 55:4.

Lesson: Acts 13:12-52.

Devotional Reading: Isaiah 51:7.

The Text Explained and Illumined

1.—The impression made by Paul's first preaching at Pisidian Antioch, verses 42, 43.—See the Historical Background. As Paul and Barnabas went out of the synagogue, the people besought Paul to address them the following Sabbath. When the congregation was dismissed, many devout proselytes (God-fearing Gentiles) their presence in the synagogue gives evidence of the kindly feeling existing between Jews and Gentiles in this city, followed Paul and Barnabas, who urged them "to hold fast the measure of faith they already had, and to expect further divine favor in answer to their steadfastness."

2.—The jealousy of the Jews, verses 44, 45.—Paul must have been a most convincing speaker, for the next Sabbath almost the whole city was gathered to hear him. The sight of such a crowd led the hearts of the Jews with jealousy, and they contradicted Paul's word and slandered the apostles.

Cloudburst In California

Bakersfield, Calif.—A cloudburst in Tejon Pass, 44 miles south of here, on the Ridge Route, delayed all traffic nearly three hours.

Tons of debris were washed over the mountain highway and a crew of 15 men with trucks and scrapers were necessary to open up a one-way passage. No lives were lost.

Toronto.—There were two great tasks before the United Church of Canada, one missionary and the other spiritual, stated Dr. George C. Pidgeon, moderator of the general council of the United Church.

Dr. Pidgeon says in his message: "The United Church of Canada is one, and, as a unit, we go forward to our great undertaking in the spirit and power of our ascended Lord."

"Two great tasks has the United Church. The first is spiritual. The wider relationship into which we have entered has meant a rich experience to all; we need now to give this awakened spirit a new expression, and all over the land, arrangements should be made for the adequate expression of this richer spiritual movement."

"The second task that confronts us is missionary. We are the United Church of Canada; we must, therefore, see that the entire religious need of the nation is met. Moreover, some of the greatest foreign mission fields in the world are under our care, and almost their entire working force is entering the United Church. These heroic ambassadors of the Cross must receive full support, and ample funds provided for a new missionary advance."

"Chief White Elk" Is Sentenced To Jail

Man Posed As Canadian Indian In London

Lugano, Switzerland.—Edgar Laplante, who obtained notoriety in England, by posing as an Indian chief, "Chief White Elk," having obtained a passport from Halifax to England in 1922, was sentenced to a year's imprisonment, and was also ordered by the court to repay an Italian countess £250.

During his stay in England, Laplante appeared in public in a head-dress of eagle's feathers, and he wore a scarlet coat and green trousers. He announced that he was with the Prince of Wales when the Prince was created an Indian chief in Alberta.

Heart Disease More Deadly Than Cancer

Terrific Pace Imposed By Rapid Way Of Modern Living

Portland, Ore.—Great strides in medical efforts to lengthen the average span of human life cannot be made until heart disease, now more deadly than cancer, tuberculosis and plague, is controlled, physicians here, attending the opening of the 1925 session of the Pacific Northwest Medical Association, declared.

The human heart must physically be a heart of steel to withstand the terrific pace imposed by the rapid pace of modern living, declared two of the leading medical men of the world, both of whom devoted their lectures to discussions of the heart.

Would Consult Other Nations

London.—The British Government is consulting other interested powers, and intends to act in close collaboration with them, regarding a reply to China's proposals for revision of her foreign treaties, Right Hon. Austen Chamberlain, British foreign secretary, told the House of Commons.

EMIGRATION THE ONLY CURE FOR BRITAIN'S ILLS

London.—Dr. Winnington Ingram, Bishop of London, speaking at the Church House, Westminster, on the subjects of Anglican Church and British Columbia, said he had been in Canada twice, and each time had returned with a feeling that Canada was going to be one of the greatest nations in the world.

Bishop Ingram said he believed that emigration was now the only cure for Britain's ills at home. He had read with amazement, he said, the premier's remarks about the numbers emigrating having decreased from 200,000 to 180,000 a year. If this was so, it seemed perfectly calamitous. Undoubtedly, unemployment in Britain was largely due to the slowing down in emigration. The real solution of Britain's difficulties was to send to countries like Canada, Britain's very best—not the unfit—to build up that great country.

July 11—"Sinners in Heaven" and Comedy at Com. Hall.

July 15—Stampede and Dance at Strathmore.

July 13—Golden Jubilee regular meeting.

July 17 and 18—"Feet of Clay" and good comedy at Com Hall.

July 18 to 24—Chautauqua Entertainment at Gleichen.

Every Monday—H. D. Powers, the Eye Specialist at the Queen's Hotel

TOWN AND DISTRICT

Mrs. Males of Redlands spent the Stampede days with her aunt, Mrs. Brereton.

Miss Giffes left on Thursday for Prince Edward Island to visit her relatives there.

Mrs. Geo. H. Gooderham and children have gone to Vancouver to spend a vacation of several weeks.

A. R. Yates, wife and family have left on a motor trip to the coast and will be away about a month.

Mrs. Levick of Calgary arrived Monday to visit Mrs. Hugh Bates, during the stampede days.

Principal Mathewson and wife left Gleichen last Wednesday to accept a similar position in some other town in the province.

Mrs. Harrington has left to join her husband on their farm in the north and severed her connection with the Gleichen school.

Geo. Mathews, wife and two daughters left on Monday by motor for Vancouver. They will be away about a month.

Mrs. A. Leslie Brereton came down from Eldon, Alberta, to visit her mother-in-law, Mrs. Brereton for a time and took in the stampede.

Miss Kent left Friday on trip to Alaska. Wonder if it is just gold she seeks? May she find someone to talk to. She hopes to return for the school opening.

"Sinners in Heaven"

With Bebe Daniels and Richard Dix

AN ALAN CROSLAND PRODUCTION

The story of a strait-laced girl and a confirmed woman-hater. And what happened when Fate threw them together, alone, a thousand miles from civilization.

Framed in an actual South Sea setting.

From the novel by Clive Arden—Screen play James Creelman

A merry minstrel show is to be staged at Milo on Friday, July 10th, that promises to be one of the most enjoyable affairs given there for a long time and will be full of good songs, jokes, etc. It will be followed by a dance and the music will be supplied by the A.Q.M. orchestra.

Did the judge fine you heavy?

It is high time the many side-walk planks that are loose were nailed down. Someone will be seriously hurt yet. The council is short of finances at present and experience a little of the delinquent taxpayers troubles. Why not have a bee?
